RESPONSE TO ELECTION/RESTRICTION REQUIREMENT

Sir:

In response to the Restriction Requirement mailed March 19, 2003, Applicants elect to prosecute Claims 12-37, drawn to a liquid crystal display device having a control signal part with a first signal wire and a second signal wire. This provisional election is made with traverse. Applicants reserve the right to file a divisional application on the non-elected invention at a later time.

MPEP § 806.04(d) states that "A generic claim should read on each of the species. Further a generic claim must comprehend within its confines the organization covered in each of the species. In addition, a generic claim should include no material element additional to those recited in the species claims." In the pending application, claim 1 and 12 satisfy the above criteria. Therefore, it is respectfully submitted that claim 1 and 12 are generic.

The present application is directed to forming a redundant wire to prevent close proximity between a high voltage line and a low voltage line from deteriorating each other due to

electrolysis. The specification discloses varieties of structures to implement such features of invention.

It is not believed that any extensions of time or fees are required. However, if an extension of time is necessary to prevent abandonment of this application, then such extensions of time are hereby petitioned under 37 C.F.R. §1.136, and any fees required therefore are hereby authorized to be charged to our Deposit Account No. 23-1951.
